

HEALTH

S-Risk® Basic

- 09.30 - 10.00 Registration & coffee
 10.00 - 10.10 Welcome & introduction
 10.10 - 11.00 Theoretical background of S-Risk®
Structure - Modules - Interpretation of risk results - Key elements
 11.00 - 12.00 Introduction to the S-Risk® web interface (incl. demo)
Managing simulations - How to modify data, ... - Finding your way in the results report - Simulating concentration ranges

S-Risk® Advanced

- 12.15 - 12.45 Registration & lunch
 12.45 - 12.55 Welcome & introduction
 12.55 - 13.25 Advanced use of the S-Risk® web interface (incl. demo)
Adding a new chemical - Adding specific measurements - Explanation of toxicological data - Details of the results report
 13.25 - 14.25 Supplementary S-Risk® user guidance (FAQs)
 14.25 - 14.40 Introduction to exercise
 14.40 - 15.40 Individual work on exercise
 15.40 - 15.55 Coffee break
 15.55 - 16.45 Discussion of exercise & roundup

Price

Participants per company	S-Risk® training - price per participant ^a		
	Basic	Advanced	Basic + Advanced
1	€ 300	€ 700	€ 900
2-4	€ 225 (from 2 nd participant)	€ 525 (from 2 nd participant)	€ 675 (from 2 nd participant)
5+ ^b	€ 195	€ 455	€ 585

^a All prices are excluding VAT
^b The max. number of participants amounts to 15 for the S-Risk® Advanced training

S-RISK®

S-Risk® is a state-of-the-art model for the calculation of exposure and related human health risks of chemicals present in soil. It has been developed at the request of OVAM.

Currently, S-Risk® is the reference model for risk assessment within the Flemish and Brussels regions' soil policy frameworks.

The model is available as a flexible web application at www.s-risk.be.

The S-Risk team regularly organizes trainings, both for basic users and for those requiring more advanced information about the possibilities of S-Risk®.

Our trainings take place at the VITO office in Berchem:
RoderVELdlaan 5, 2600 Berchem
